24th March 2019

Special Olympics, World Games – Ceremonies

Dear Alelie,

I wanted to write to you whilst the memories and images of the World Games Ceremonies are all still vividly fresh; to thank you for your support on this very successful project.

Your crew's knowledge of the venue and enthusiasm for getting the job done was a massive bonus for us with the limited build and turnaround time available at the stadium.

Ernesto and Elmer have done a great job, ably supporting our site management team at every step of the production, so please would you pass on our sincere thanks to them.

Please could you pass on our thanks to all of the team that supported the Stage Managers for their efforts and for coping with the long calls and last-minute changes.

We are enormously grateful to you for your support of People and we look forward continuing to work closely with you on future projects.

Very best wishes

Mark Fogwill
Technical Director
